Abbreviations, Acronyms, and Symbols

This designates a brand-name drug with FDA “A”-rated generic equivalents. Prior authorization is required for the brand, unless a particular form of that drug (for example, tablet, capsule, or liquid) does not have an FDA “A”-rated generic equivalent.

^ This drug is available through the health care professional who administers the drug. MassHealth does not pay for this drug to be dispensed through a retail pharmacy.

PA Prior authorization is required. The prescriber must obtain prior authorization for the drug in order for the provider to receive reimbursement. Note: Prior authorization applies to both the brand-name and the FDA “A”-rated generic equivalent of listed product.

BP Brand Preferred over generic equivalents. In general, MassHealth requires a trial of the preferred drug or clinical rationale for prescribing the non-preferred drug generic equivalent.

CO Carve-Out. This agent is listed on the Acute Hospital Carve-Out Drugs List and is subject to additional monitoring and billing requirements.

PD Preferred Drug. In general, MassHealth requires a trial of the preferred drug or clinical rationale for prescribing a non-preferred drug within a therapeutic class.
