

MassHealth Drug List 90-day Supply Page

For the duration of the COVID-19 federal public health emergency, MassHealth issued written guidance describing drug categories where up to a 90-day supply may be dispensed. Please see Pharmacy Facts (<https://www.mass.gov/lists/masshealth-pharmacy-facts>) #141 and #142 for more detail. MassHealth will issue new guidance if this changes.

MassHealth is not currently requiring any drugs be dispensed in a 90-day supply.
